## FRIENDS

**Friends** are the most important people in life.

**Friends** are those people who know everything about me and still like me.

**Friends** are the most valued people we take to our hearts wherever life takes us.

We can spend a lot of time together to get to know each other and to participate in each other's lives.

One day we must continue on our own path. But no matter where we go, we will always remember a wonderful person who has touched our lives.

No matter where life will lead us, we will always remember the person who lived and helped us to learn more about ourselves.

The person who stood by us in difficult times and who makes us feel safe enough to reveal our true self.

**Friends** are the unforgettable people with whom we dream and also make great plans for the future that accept us to become what we want to be.

No matter where life leads us, or how far we are from each other, you will always be close to me and I will always be there for you.
